

## **Pollution prevention and control**

**Full list of sectors and businesses which may require a permit**

### ***Animal and vegetable processing sector***

Processing animal remains and by-products  
Production of natural sausage casings, tripe, chitterlings and other boiled green offal products  
Pet food manufacturing involving the processing of raw animal material  
Pet food manufacturing not involving the processing of raw materials  
Animal feed compounding  
Mushroom substrate manufacturing  
Tobacco processes

### ***Combustion and incineration sector***

Waste oil burners less than 0.4 MW net rated thermal input  
Combustion of fuel manufactured from waste  
Crematoria  
Animal carcase incineration processes under 1 tonne an hour

### ***Minerals sector***

Blending, packing, loading and use of bulk cement  
Manufacture of heavy clay goods and refractory goods  
Coal, coke and coal products processes  
Crushing and screening  
Manufacture of timber and wood-based products

### ***Metals sector***

Metal decontamination processes

### ***Organic chemicals sector***

Storage, loading and unloading of petrol at terminals  
Unloading of petrol into storage at service stations  
Powder coating

## ***Solvents sector***

Chemical treatment of timber and wood-based products  
Textile and fabric coating and finishing products  
Film coating processes  
Coating in drum manufacturing and reconditioning processes  
Printworks  
Printing of flexible packaging  
Paint application in vehicle manufacturing  
Coating of metal and plastic  
Vegetable oil extraction and fat and oil refining  
Rubber processes  
Adhesive coating  
Wood coating  
Coating of trailers and original coating of road vehicles  
Respraying road vehicles  
Coating and recoating aircrafts and aircraft components  
Coating and recoating rail vehicles  
Formulation and finishing pharmaceutical products  
Surface cleaning  
Dry cleaning
